Kit under re-development

COMMODORE IRS REAR HEIGHT MEASUREMENTS:

To check which Coil-Rite kit will suit an IRS (not VE)

Commodore, measure from the hub centre to bottom of the wheel arch, then choose the matching kit.

Jack car up before measuring if it is lower than desired.

Do not fit if vehicle has optional self levelling rear suspension

Do not fit if vehicle has optional self levelling rear suspension

DO NOT EXCEED THE VEHICLE'S LEGAL GROSS VEHICLE MASS RATING (GVM) OR AXLE CAPACITIES

Notice: Some vehicles may require certification for legal fitment of Airbag Man air spring products, please check with regulatory authorities regarding this before purchase or fitment of Airbag Man air spring kits.

Notice: Airbag Man and Firestone have made every attempt to assure that the air helper spring kits listed will properly fit. Chassis modifications made by others that effect suspension dimensions may not provide conditions for proper fit. Due to new model introductions and manufacturer changes, Airbag Man reserves the right to make changes to the list without notification.

Notice: Some manufacturers use brake proportioning valves to adjust braking force as a function of chassis to axle distance. If you modify your suspension it effects the function of this valve. We suggest that you check with your dealer on proper treatment of this device prior to installation of air spring kits.
